

## **Report Distribution Plan**

Bakun HEP

March 2025

One of the prerequisites for Hydropower Sustainability certification, in accordance with the Hydropower Sustainability Assurance System is the publication of the Preliminary Assessment Report (“the Report”) for public consultation.

This phase will extend over a period of 60 days, commencing on **10 April 2025** and ends on **10 June 2025**.

To ensure that surrounding communities, key stakeholders and any interested parties have access to the document and able to provide their comments and feedback, we propose the following methods to facilitate access and capture their input:

- The publication of the Report will be in English, and the Report Summary will be both in English and *Bahasa Melayu*. This is based on the fact that most of the stakeholders, inclusive of the communities, can read and communicate in English. English is the official language of the state, alongside *Bahasa Melayu*.
- The reports will be disclosed in Sarawak Energy website, with a specific micro-site that link to the corresponding page on the HSA site and to the Public Consultation form.
- We will send public disclosure notification to relevant stakeholders through relevant means, such as emails, notices and WhatsApp messages.
- Printed copies of the document and the comment form will be made available at strategic places such as Bakun HEP office, Kapit Resident and District offices (Belaga and Sungai Asap). A locked box will be prepared on-site for the ease of the stakeholders to drop their comments on the report.
- Printed documents will be hand delivered to the local state assemblyman for their perusal.

Please refer to **Appendix 1** on the list of the identified stakeholders and the proposed disclosure mechanism.

Printed comments will be collected twice: 30 days and 60 days after the start of the consultation by our on-site team and will be forwarded to HSA Secretariat for further action.

During the public disclosure period, we will continuously issue reminders (every 30 days) about the report to ensure the stakeholders are aware of it and can provide their feedback and comments.

## Appendix 1: List of identified Stakeholders and disclosure mechanism

	Department/ Organization	Communication Strategy	Distribution Method	Feedback Strategy
Project Affected Communities (PAC)				
1	BRS - Balui Lake Native Association (BLNA)	i. Official Letter	i. Physical copy access of the report at Resident, District, Sub-District offices and Bakun HEP offices ii. Link to the report	i.
