Powering Community Growth

Sarawak Energy believes in powering community growth through transparent engagement, sustainable partnerships, and social investment and support to maximise the positive impact of our projects and operations.

About Sarawak Energy

- Sarawak Energy is powered by a multi-disciplinary workforce of 5,000 Sarawakians, serving a population of about 3 million, covering domestic, commercial, industrial and export customers through an extensive transmission and distribution network.
- Our mission is to deliver reliable, sustainable and affordable energy for the people of Sarawak and beyond.
